Career Objective

Computer Science undergraduate pursuing B.Tech in Computer Science and Engineering (Artificial Intelligence) .Passionate about building responsive, user-friendly, and high-performance web applications with clean and maintainable code.

Education

Pranveer Singh Institute of Technology, Kanpur

Bachelor of Technology in Computer Science and Engineering [Percentage: 81] (Till 6th Semester)

Oct 2023 - June 2027

Kanpur, India

Deoria Senior Secondary School

Senior Secondary (Class XII), CBSE Board [Percentage: 92.4]

Apr 2021 - Mar 2022

Deoria, Uttar Pradesh, India

Central Academy

Secondary (Class X), CBSE Board [Percentage: 91.6]

Apr 2019 - Mar 2020

Deoria, Uttar Pradesh, India

Technical Skills

Languages: C, C++, HTML, CSS, Javascript, React

Concepts: Data Structures & Algorithms, Machine Learning, Deep Learning, Object-Oriented Programming, SQL, Natural Language Processing

Software Engineering: Engineering practices, Debugging, Scalability, Performance Optimization

Frameworks and Libraries: Keras, TensorFlow, scikit-learn, Matplotlib, Pandas

Developer Tools: MySQL, Git, VS Code, Google Colab, Jupyter Notebook, GitHub

PROJECTS

Fridge-to-Recipe – AI-Powered Recipe Generator

Jun 2026

- Developed an AI-powered recipe recommendation web application using **React, Vite, JavaScript, and Vanilla CSS** that generates recipes from user-provided ingredients.
- Integrated the **Google Gemini API** to generate personalized recipes with step-by-step cooking instructions and scalable ingredient quantities.
- Implemented recipe progress tracking, serving-size adjustment, and browser **localStorage** to persist user preferences and API key securely across sessions.

BookTown – Online Book Purchase Website

Jan 2026

- Developed a fully functional online bookstore website using HTML, CSS, and JavaScript.
- Implemented core e-commerce features including user authentication, shopping cart, book search, and secure checkout system.
- Designed responsive UI pages for homepage, product listings, cart, and payment flow to enhance user experience.
- Integrated dynamic cart management and order placement functionalities using JavaScript and local storage.

Expense Tracker – Personal Finance Management Website

Jun 2025

- Developed a responsive expense tracker web application using HTML, CSS, and JavaScript for personal finance management.
- Integrated browser localStorage for persistent transaction history and saved theme preferences across sessions.
- Implemented income and expense transaction management with category filters, automatic balance updates, and deletion confirmation.
- Designed modern UI with dark/light mode, toast notifications, and mobile-friendly responsive layout.

ACHIEVEMENTS

- Solved 750+ problems on LeetCode in C++, with strong grasp of DSA and a competitive rating of 1500 
- Earned 5-star in Problem Solving, C++, and Python on HackerRank, demonstrating strong algorithmic proficiency 

CERTIFICATIONS

- HTML5 - The Language – Infosys Springboard January 2025 
- HackerRank JavaScript Certificate – HackerRank 
- Oracle Certified Foundation Associate – Oracle (October 2025) 

Soft Skills

Problem-Solving, Team Collaboration, Communication, Adaptability, Time Management, Analytical Thinking
